

Follow-up Questionnaire

Hello <person-name>

thank you again for participating in the interview, your contribution has really helped our research.

Now we kindly ask you to complete this follow-up questionnaire, tailored on your specific process, to gather some information we couldn't get during the interview.

This questionnaire is divided in 4 small parts, and it will take you less then 10 minutes to complete.

To show our appreciation, as soon as we receive the answer from this questionnaire, we will send you an email to let you chose among a list of rewards.

For any clarification don't hesitate to contact us (hello@softwarestartups.org)

Let's start...

Quality Achievement

During the interview you have mentioned some quality aspects of your product important to achieve.

***1. To what extent have you achieved the following quality attributes in the first public release?**

	Extremely poor	Below Average	Average	Above Average	Excellent
1	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Effort By Phase

We identified and grouped development-related activities in different phases.

***2. How were resources (effort) distributed in the different phases of your software development strategy? Imagine 100% is the overall time and effort, so please distribute the answers so they add up to 100.**

If some of the following activities were not conducted, you can type '0'.

Defining and organizing requirements specification	<input type="text"/>
Analysis of feasibility of the product development	<input type="text"/>
Design of the product architecture	<input type="text"/>
Implementation/ coding	<input type="text"/>
Testing/ verification and validation	<input type="text"/>
Setting up the deployment environment	<input type="text"/>

Engineering Focus

In this page we list the artifacts/methods/tools, which you have reported during the interview.

***3. With respect to Time-to-Market, to what extent have the following elements helped you to speed-up development?**

	Useless	Of Little use	Somewhat useful	Very useful	Extremely useful	NA
1	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Overall Development Strategy

***4. Are you satisfied with the overall software development approach undertaken by your company for releasing the first product?**

Not at all satisfied	Slightly satisfied	Somewhat satisfied	Very satisfied	Extremely satisfied
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

5. If any, what is the biggest change you would apply to your development approach, looking back with perfect hindsight?

***6. Briefly, what was the single-most-important element that helped you during software development? How did it helped you and why?**

Submit results

Congratulation, It's over (almost)!
You can give us a little feedback to help us improve.

7. Are you satisfied with clarity of our questions?
